Conditions:

1. Do not use tire chains with aluminum wheels. Chains may chip the wheels. Use only SAE Class "S" chains.
2. Do not use tire chains with aluminum wheels. Chains may chip the wheels. Use only SAE Class "S" chains. Only use cable type chains on the front wheels.
3. Do not use tire chains on the front wheels if your vehicle is equipped with 20 inch tires.
4. Only use cable type chains.
5. Use only SAE Class "S" cables on the front axle for P235/70R16 tires. SAE Class "S" cables can be used on both front and rear wheels for P225/75R15 and P215/70R16 tires.
6. Use only SAE Class "S" cables only on the front axle for P235/70R16 tires.
7. Only use cables or chains on the rear wheels.
8. Only use cable type chains or SAE Class "S" chains.
9. Do not use SAE Class "S" chains or other chain types on vehicles equipped with size P235/55R17 or 255/45R18 tires.
10. Only use SAE Class "S" chains on rear wheels for P215/65R16 tires.
11. Use only SAE Class "S" cables or equivalent on the front axle for P205/60R16 equipped vehicles. Use of optional spike spider type traction devices or equivalent is also acceptable.
12. Do not install tire chains, cables, or optional traction devices on the rear tires. This could cause damage to the vehicle's wheel house or body.
13. Do not use tire chains, cables, or optional traction devices with optional P225/50R17 tires.
14. Use only SAE Class "S" cables or equivalent on the front axle for P215/65R17 equipped vehicles. Use of optional spike spider type traction devices or equivalent is also acceptable.
15. Do not use tire chains, cables, or optional traction devices with optional P225/60R18 tires.
16. Use only SAE Class "S" cables or equivalent on the front axle for P215/60R17 equipped vehicles. Use of optional spike spider type traction devices or equivalent is also acceptable.
17. Do not use tire chains, cables, or optional traction devices with the optional P225/55R18 tires.
18. Do not use any type of tire chains on these vehicles. This includes both conventional and cable type chains.
19. Use only SAE Class "S" cables or equivalent on the front axle for P205/60R16 equipped vehicles.
20. Do not use tire chains with aluminum wheels. Chains may chip the wheels.

* The above "Tire Chain Usage" information applies only to vehicles as manufactured by Ford Motor Company and its affiliates, equipped with original equipment tire and wheel assemblies. See your Owner Guide for additional information and warnings.
