

Mustang PUNCH® Upgrade Kit

• Engineered by Rockford Fosgate:

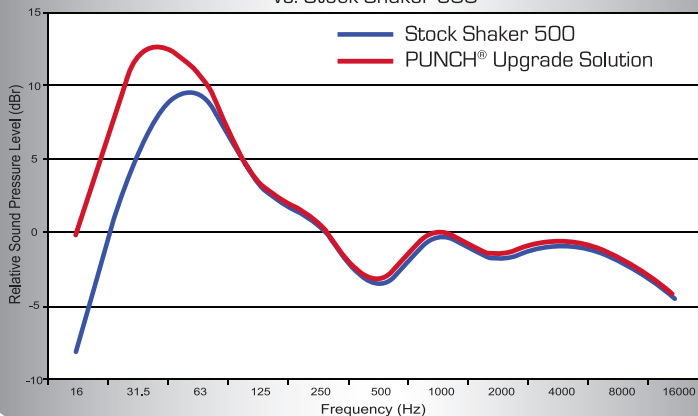

Rockford Fosgate audio engineers tuned each component to work together as a system with the factory stereo equipment. The upgrade solution includes all necessary wiring harnesses, adapters and brackets for easy plug-and-play assembly.

• The PUNCH Upgrade:

Mustang-specific subwoofer enclosure molded to fit the contours of the Mustang coupe and convertible trunk perfectly. Legendary Rockford Fosgate PUNCH 12" long-throw subwoofer and 150W MOSFET amplifier are matched to work optimally with the enclosure.

PUNCH® Upgrade Solution
vs. Stock Shaker 500

In 1973 Jim Fosgate put his name on the first piece of true high performance audio gear built specifically for the car. The industry would never be the same. He defined the PUNCH[®] over 30 years ago; it's the sound of Rockford Fosgate and you can hear it in everything we make.

Rockford Fosgate products continue to shape the car audio industry, from the first Power[®] 1000 amplifier and monster subwoofer to the birth of computer controlled car audio system (Symmetry[®]) and patented Hybrid Technology amplifier. Our innovations led to some of the most recognized and coveted designs in the industry and amassed a loyal following of customers that believe Rockford Fosgate is more than just a brand, it's a lifestyle.

Today Rockford is the leader in the design and manufacture of high performance car audio amplifiers, subwoofers and speaker separates.⁽¹⁾ Rockford Fosgate is the consumer brand value leader ⁽²⁾ and the preferred brand of consumers ⁽²⁾ in the industry. Our innovative products are available in over 100 countries through more than 10,000 retail outlets.

Give your Mustang an attitude adjustment, Rockford Fosgate style. The PUNCH Upgrade Solution brings our legendary sound to your Pony Car.
