

Pulse-Pounding **Excitement!**

From the introduction of the first (and only) production Pony car to the year-over-year building of a legendary heritage on the street and the track, Mustang is nothing short of a trophy-winning history maker.

Expect the 2013 model to deliver yet another banner year with its impressive offerings of a high-performing **V6**, the legendary **5.0** or the **HiPo 302 Boss** motor, as well as coupe and convertible models that are designed to meet a wide variety of Mustang tastes. Enthusiasts and “enviers” alike will be thrilled by the 2013 model.

What's New for 2013

AMPED-UP POWER

- The GT model's 5.0 now produces **420 horsepower!**
- SelectShift Automatic® transmission offers “manual” control

AMPED-UP EXTERIOR

- A significantly more prominent grille and front splitter
- Functional heat extractors on the GT and Boss 302 hood
- Body-color rocker panels

- A high-gloss black panel between the taillamps
- LED taillamps, featuring the iconic sequential turn signals, have a “smoked” appearance that complements the overall aggressive look
- A new lineup of wheels across all models
- New colors include: Gotta Have It Green, Deep Impact Blue and School Bus Yellow (Boss 302 exclusive)

LIGHT IT UP!

- HID headlamps on both V6 and GT
- Two individual LED bars accentuate the headlamps
- Three red ropes form the signature three-bar taillamps
- Available Pony projection light mirrors cast the image of the Mustang Pony on the ground when the unlock button is activated

Innovative Technologies

The 2013 Mustang also offers a host of features and technologies from high-performance to high-tech.

STANDARD

- New 4.2-inch LCD productivity screen located between the heritage-inspired tach and speedometer (V6 and GT Premium arrays)
- Electric power-assisted steering (EPAS) with driver-selectable effort (Comfort, Normal and Sport) and drift control
- Easy Fuel[®] capless fuel filler
- MyKey[®]
- Power sideview mirrors with integrated blind spot mirrors

OPTIONAL

- SYNC[®]
- Ambient lighting
- MyColor[®]
- HD Radio^{™(1)}
- Glass roof

Track Apps

A unique new feature of the 4.2-inch screen — Track Apps allows Mustang drivers to measure the performance of their muscle car as well as the option to select additional gauges.

Driver-Centered Interior

The Mustang interior has a wraparound cockpit feeling, giving the driver a sense of complete control. New features include:

- Leather-wrapped steering wheel now standard on all models
- New instrument cluster with 4.2-inch LCD productivity screen (V6 and GT premium arrays)
- Available leather-trimmed or cloth RECARO[®] seats on V6 and GT

GT Track Package

Available on GT Mustangs with a manual transmission. The package includes everything in the current Brembo[™] Brake Package plus:

- Engine oil cooler
- Boss 302 radiator
- TORSEN[®] helical differential

Other package updates include:

- Brembo Brake Package on both manual and automatic GT
- V6 Performance Package now available on automatics, too
