

## KEY “WHY BUYS”

- Model lineup: V6, V6 Premium, GT, GT Premium, Boss 302 and the Shelby GT500
- 3.7L V6 engine (std. V6 models) with Ti-VCT is the most powerful V6 engine in Mustang history, offering industry-first 305 horsepower and up to 31 mpg highway<sup>(1)</sup>
- 5.0L V8 engine (std. GT models) with Ti-VCT delivers 420 horsepower<sup>(2)</sup>
- 6-speed SelectShift Automatic<sup>®</sup> transmission allows drivers to shift gears up or down without a clutch, using a gear shift knob-mounted switch (opt. V6, GT)

- High-revving 302 V8 engine (std. Boss 302) with Ti-VCT delivers 444 horsepower and 380 lb.-ft. of torque
- Electric power-assisted steering (EPAS) with driver-selectable effort, drift control and active nibble control (std.) provides outstanding steering performance
- Instrument cluster with 4.2" LCD screen includes Track Apps™, which delivers performance metrics for track drivers. The screen displays braking performance, and measures g-forces and acceleration times complete with automatic and countdown starts (std. V6 Premium and GT Premium models)
- The 2013 Shelby GT500 offers the most powerful production V8 in the world<sup>(3)</sup> with a 650-horsepower 5.8L supercharged V8 engine, Brembo™ 6-piston front brake calipers and electronic adjustable dampeners (shock absorbers)

(1) 2012 EPA-estimated 19 city/31 hwy/23 combined mpg with coupe model and automatic transmission.

(2) Maximum horsepower rating achieved with premium fuel.

(3) Based on current production models and manufacturer horsepower data. Coming summer 2012.

## COMPETITIVE COMPARISON

**BLUE** denotes Ford advantage over competition.

**RED** denotes advantage over a specific competitor.

### 2013 FORD MUSTANG GT PREMIUM COUPE

### 2012 CHEVROLET CAMARO SS (2SS)

### 2012 DODGE CHALLENGER R/T
