

MAJOR PRODUCT CHANGES

OVERVIEW

2010 Mustang features an all-new design, starting with the sheet metal to include the sculpted hood, front fenders, rear quarter and door panels. And it doesn't stop there, close attention to detail continues on with unique grilles and fascias that separate the V6 from its muscular stable mate the GT. Followed-up by new styled headlamps, side-view mirrors, follow the swept beltline that leads to rear quarter window trim. Finishing touches toward the rear are evident as well, with high wheel arches, sequential tail lamps, rear end including the decklid. The 2010 adds a new line-up of 17", 18" and optional 19" Euro-flange aluminum wheels and tires.
