

MAJOR PRODUCT CHANGES

OVERVIEW

The 2011 Mustang features a modern design, starting with the sheet metal to include the sculpted hood, front fenders, rear quarter and door panels. Close attention to detail continues on with unique grilles and fascias that separate the V6 from the GT, styled headlamps and side-view mirrors that follow the swept beltline that leads to rear quarter window trim. Finishing touches toward the rear end are evident as well, with sequential tail lamps and the decklid.
