## DESCRIPTION AND OPERATION

### Audio System

The base audio system consists of a AM/FM single CD audio unit and 4 full range speakers.

The 500 watt system consists of AM/FM CDX6 audio unit, MP3 capable, with 2 full range speakers, 2 Audiophile 2-way speakers, plus 2 8-inch door mounted subwoofer speakers and 2 door subwoofer amplifiers.

The 1,000 watt system consists of the 500 watt system components with the addition of a luggage compartment 2-speaker subwoofer enclosure with an amplifier rack. The amplifier rack is mounted with 4 amplifiers.

Refer to the Owner's Literature for complete audio system operating controls and functions.
